We would appreciate having a statement about your philosophy and work as an artist—either general or something specific about the piece(s) selected for this year's May Show to aid us in the preparation of gallery talks and in the release of publicity materials. For more space, use the back of this sheet.

My vessel work is derived from plant and animal forms. The swelling volumes depict the dynamic tension between internal and external forces which are part of the growth process.

In treatment of the surface, the intent is to express the complexity of living forms and the way they are revealed by texture and color. Both earthy and brilliant color are important in the work. Textured clay is contrasted with metallic glaze. My favorite story as a child was of Aladdin and the lamp. I liked the description of a cave filled with fruit-shaped jewels where the lamp was kept. Jewels gleaming against rough cave walls are like my glazed and unglazed surfaces--like the play of coarseness against refinement which is an important element in ceramics.

While my interest is in organic forms, I see those forms integrated into the man-made environment so that earthiness and fecundity are juxtaposed with urban grit and flash.

Dear Donna:

In my desire to become more familiar with your current work, I am requesting slides of pieces you have done over the past two years. They will be returned in about eight weeks. In addition, I would appreciate a recent CV for my files.

Many thanks for your assistance.

With best wishes,
